CITY OF GALT
AGENDA
PARKS & RECREATION COMMISSION MEETING
CITY COUNCIL CHAMBERS, 380 CIVIC DRIVE, GALT, CA
March 13, 2013
7:00 P.M.

Chairperson: Brendan Moore
Commission: Don Buchanan, Chris Smith, Janice Reuthinger, Brent Steele

1. CALL MEETING TO ORDER

2. ROLL CALL:
a. **Commissioners Present:**
b. **Commissioners Absent:**

3. CHANGES TO THE ORDER OF AGENDA

4. PUBLIC COMMENT: Under Government Code Section 54954.3, members of the public may address the commission on non-agenda items. Speakers may also address the commission on any agenda item during consideration of the item. Speakers shall restrict their comments to issues that are within the subject matter jurisdiction of the commission and limit comments to a maximum of five (5) minutes. Please fill out a speaker sheet located on the table inside the entrances to the council chambers and forward the completed speaker sheet to the commission secretary. Please state your name and city of residence prior to making your comments.

5. ACCEPTANCE OF MINUTES OF THE MEETING OF FEBRUARY 13, 2013

6. PRESENTATION:
Galt Market – Kimberly Paulson

7. OLD BUSINESS
a. **Subject:** Adult Soccer – Moore
b. **Subject:** Landscape Contract - Selby

8. NEW BUSINESS
a. **Subject:** Officer K. Tonn Memorial Dog Park
(Recommendation to City Council)
b. **Subject:** Youth T-Ball/Softball Practice Sign up Procedures
(Informational)
c. **Subject:** C Street Landscape Responsibility - Selby
(Informational)

9. UPCOMING COUNCIL AGENDA ITEMS
a. Market Presentation – March 19th
b. Council Follow Up – Non-Profit Facility Use – April 2nd
c. Memorial Dog Park – April 2nd

10. UPCOMING EVENTS

- **T-Ball/Softball Opening Day – April 13th**
- **Eggstravaganza – March 23rd**
- **Shred It Event – April 7th**
- **Bus Roadeo – April 26th & 27th**
- **Cherokee Truck Show – May 3rd & 4th**
- **Safety Fair – May 11th**
- **Strawberry Festival – May 16th – 18th**

11. COMMISSIONERS REPORTS/COMMENTS

a. Chairperson Moore
b. Vice- Chairperson Buchanan
c. Commissioner Reuthinger
d. Commissioner Smith
e. Commissioner Steel

12. STAFF COMMENTS

13. FUTURE AGENDA ITEMS

ADJOURNMENT

ARMANDO SOLIS, SPECIAL PROJECTS ADMINISTRATOR: The agenda for this Parks and Recreation Commission meeting was posted in the following listed sites before 5:00 p.m. on the Friday preceding the meeting.

1. City Hall Lobby, 380 Civic Drive
2. U.S. Post Office, 600 N. Lincoln Way
3. Galt Parks and Recreation Department, 610 Chabolla Avenue

CITY OF GALT

MINUTES

GALT PARKS AND RECREATION COMMISSION MEETING

Council Chambers, 380 Civic Drive, Galt, California
Wednesday, February 13, 2013

The meeting was called to order at 7:00 p.m. by Commissioner Moore. Roll call was taken. All Commissioners with the exception of Commissioner Smith were in attendance.

Staff members present: Special Projects Administrator Solis and Administrative Assistant Porteous-Toste.

CHANGES TO THE ORDER OF THE AGENDA - None

PUBLIC COMMENT

Speaker – Athena Buchanan – City resident – Coach since 2002. Wanted to point out the ups and downs and transitions of leadership.

- Scheduling for practices for the past few years has caused a hardship for coaches and players family.
- In the past all practices were chosen at the beginning at the season until all practices were spoken for or all coaches had picked what they want.
- The past two years every two weeks the coach has to drive down to P & R or call right at 8:00 in hopes to get a practice for the next two weeks.

Ms. Buchanan stated that this process causes a hardship to not only the coach but the families in trying to schedule practices around other commitments. She stated that she has brought this issue to whom she believed to be in charge of this and was told that no one else has complained. She stated that her perception is that staff believes that it is only Mrs. Buchanan the squeaky wheel.

She elaborated on how difficult it is for her family to schedule not three kids' activities all through park and recreation along with Doctors appointments, school and church activities with only two weeks notice. Then as a volunteer coach she is expected to connect with parents via email, phone or text. This is a challenge. The Department will email the coaches their chosen practices for the two weeks but not all parents have computers for her to re- email, so at her cost she has to make copies for the parents. She wants to work together and this does not work. She has contacted both Elk Grove and Lodi and both give out practice and game schedules at the beginning of the season.

She is requesting to go back to the way it was previously done and that was to choose practices at the beginning of the season for the entire season.

Mrs. Buchanan gave an example: She went to P & R at 7:45 and was second in line and at 8:00 when the doors opened all phone lines began to ring at once. Not all parents have the luxury of coming into the office at 8:00 a.m. or holding on line until being helped, those coaches end up with either no viable times or late times that do not work for the coach so they may opt not to have practices. One of the reasons parents coach is so they have some control of choosing practice times that work for them and fit into their schedule. Solis did respond that we have limited facilities and many times the Department has been called on the day of practices by the school saying that they overbooked or have to use the facility for something else, so the Department has to rush to contact coaches and players. The Department also attempts to reschedule them at another time and or facility.

.

John Pate – Reiterated some of Mrs. Buchanan's issues. He is not coaching basketball but the coach of his son's team is getting only the late times and many of the 3rd graders cannot make an 8 – 9 pm practice times as they need to be in bed, then only maybe 3 kids show up. His coach Mr. Tassano was told about a change of hoop heights and there is some confusion. The written rules stated the hoop heights were to be at 6 ft. Dan Lucero although told him that the hoop height could be where ever the coach wants. Mr. Pate says that if they can have the hoop height to go higher if they have the ability. He feels that gives an unfair advantage at times if you are having your kids try to rebound off of different heights. He feels that the once the rules a done they should stay that way. Coach Tassano showed Mr. Pate the new rules that were given to him mid season that said that they could be put it at a different height. He had a similar problem as a Softball coach. They cancelled the championship game as it was going late and rescheduled which he says changes the momentum and everything, etc. and he felt it should have been played out. He feels the rules should be set at the beginning of the season to include this type of circumstances….i.e. if the game is going to long then this is what will happens instead of someone just stepping in and saying it is done until later date. That way the parents and coaches know and the coaches aren't asked what's going on and he has no idea with any real answers. Steele asked the age group. Mr. Pate said 3rd & 4th graders and the game was called at 8:45 which was late. He compared it to the Super Bowl and the lights going out, momentum changed but game was played to the end,

Allison Crawford – 8 year daughter plays on Mrs. Buchanan's team as well as a very busy Girl Scout Volunteer. The current practice scheduling does not allow her daughter to participate the way that she should. With this scheduling it would seem as though we would have to keep our entire calendar open in the off chance that we may have basketball practice. They believe that when they sign up for an activity that we should participate 100 % but the way the practices are scheduled they do not work for her family as well as many other families she knows.

PRESENTATIONS; Council Member Payne – Honor the Game
The City of Galt, Parks and Recreation Department are giving seminars by the Positive Coaching Alliance. A committee was formed that thought this was a great idea. Spaghetti fundraiser is being held Saturday, March 2nd to raise funds to continue this program for three years with a day camp in 2014.

Jack Jenkins had some words about the PCA and Council Member noted she has tickets for the fundraiser for purchase if anyone was interested. The Program Committee wants to make a big impact in the entire Community so they want it to continue.

Solis said that the P & R, PD, GHS District, City, Character Coalition and PCA are all on board for this program. Reuthinger went through program when she was President of the Illusion Softball. Says it is a very good program and feels it is good for anyone that is working with kids.

Moore commented that he believed it began at Stanford College and also had positive comments on the program.

At the present time the City's coaches are required to attend. The intent is to expand the program to the organizations that utilize our facilities and implement the parent mandatory meeting for youth participation in sports (workshop) and also the camp 2014. So the money is for the additional workshops and the camp.

ACCEPTANCE OF MINUTES

The Commission went on record accepting the minutes from the February 13, 2013 as presented with no objections.

OLD BUSINESS

a. **Subject:** Landscape Contract – Selby – Solis passed out the Landscape Contract Report. prepared by Selby. Solis asked that the Commission accept the report and further discussion if needed by the Commission will be addressed at the next meeting.

ACTION: Reuthinger moved to accept the Landscape Maintenance update submitted by Adin Selby. Motion move and seconded. A vote was called for and motion passed unanimously.

b. **Subject:** Adult Soccer - Moore

Program is proceeding forward. To keep fees down it has decided on a 70-7 format that will allow utilization of smaller fields. Veterans Field will be used and it can be striped and can set up as one or two fields. Only referee is required for this format and 6 teams still required to go forward. The plan is to play 8 games May-June or sooner as the President of CSA will expedite the paperwork. Division suggestions Coed under and over 30 and a Men's Open. Single applicants will be taken as well as teams. League will be coming up with a fee schedule. City has been asked to waive the 10 per player fee for the first year by CLYSL in lieu of them purchasing the medium size goals for use on City property. City Manager has approved this for the first year to get this off of the ground and the goals can be used for other groups using the medium goals. Moore is estimating 600 – 700 dollars a team or approx $60 per player.

Department will carry registration forms and put it on the website. Depending on demand other leagues i.e. women's and competitive for example can be added. Veterans opens up play days from just Sundays at Walker to more options at Veterans. This program also addresses the Youth Master Plan for the older age category

c. **Subject:** 2013 Independence Day Celebration UPDATE - Solis

Solis reported that City Council approved the Celebration and budget. They also approved it being budgeted during the regular budget in the future so the Commission will not have to address this item annually. The event will be on the 4th of July this year. We just added a 5K run in honor officer Kevin Tonn. Commissioners will be asked to assist in getting sponsorships. The Committee is looking at a different Fireworks provider that has music synchronized to the fireworks show.

d. **Subject:** 2013 CPRS Conference – March 5 – 8, 2013, San Jose – Solis

3 Commissioners are going and it is not too late if anyone changes their mind.

e. **Subject:** Ethic Training Requirements – Solis

Solis reminding those that did not attend needs to take the online course and get it done.

f. **Subject:** Non-Profit Facility Rental UPDATE – Solis

City Council approved the continuation of the rental facilities to the local non-profit organizations. Changes made were 2 free rentals contingent to a 6 month reservation window last year is now the organizations can reserve up to a year in advance with only 1 free rental per organization. This is for Littleton and Chabolla Centers only.

NEW BUSINESS

a. **Subject:** Walker Park Artificial Turf Wear and Tear - Selby

Solis spoke on the limitation of Walker Park Artificial Turf to a game only field and any benefits to longevity by doing so. Solis reported the following:

David Brown from Turf Field said logically the less used the longer it will last but has no case studies to support that.

SIS – Support in Sports - when asked how long does synthetic athletic turf last before it has to be replaced….answer depends on the application of force and how much use the synthetic turf must withstand

Pro turf solutions – depending on the amount of usage and how well the field is taken care of. Usage does have an impact on length of contribute field life.

During the summer we will have more fields while limiting artificial turf to games only.

Moore asked about other people using the field during scheduled practices. Solis responded to tell individuals that the field is reserved and if there continues to be problems please contact our staff on the number on the posted on the gate.

Steele suggested larger signage to inform users that it is by reservation only. Rudy Rodriguez says that the signage is small and also thinks larger and more signage would be helpful.

Buchanan asked about the $10 fee and how it affects those groups that do not use Walker. Solis explained the program and how the money is also used for maintenance on the other sports facilities.

Steele is still concerned with the possibility that the artificial field may only be used 1 day a week and concerned that organizations will want to use field when no one is on it. He would have no issue if during this 6 month period May – October he observed it being used 3 – 4 days a week. Then he would be o.k. with it but not if it is only used 1 day a week. He would like to try it and revisit it in a month or so.

Discussion about who would use it for practices if there was only usage 1 day a week for games. There are too many organizations to decide who would get practice times. First come first serve was suggested and Mr. Buchanan does not believe that system works.

After much discussion back and forth – pros and cons, Solis is asking for support from the Parks and Commission for staff's recommendation to use the artificial turf for games only for the entire 6 months and then the Commission can reevaluate whether it was successful or not.

Natural turf still projected for usage May 2013.

Rudy Rodriguez speaker – agrees with comments made but feels the City needs to look at more facilities. He believes that it will be difficult for teams practicing on natural turf and then play on artificial turf. Steele agreed that this will put teams at a disadvantage. Teams need some practices on turf.

It will be difficult to see the field not being used and could be an issue to the organizations especially now paying the $10 per player fee. Spoke on the growth of Galt FC and game scheduling. Mr. Rodriguez believes that even with the new fields on board it will be difficult and there will still be a shortage.

Solis reiterated that Walker will NOT be closed only used for GAMES and the two new natural turfs will be available for practice as well as Veterans, McCaffrey and Greer.

Solis spoke about the Central Valley Jaguars, Jr. Warriors, Jr. Hawks, and the Tarascos recent interest in using Walker also. Jr. Warriors have to use Walker if Greer gets flooded out due to rules the league mandates the amount of practice required to play in the a league game.

Solis says GAME ONLY is the only way to do it to make it fair. Solis says it can be revisited next year to see how it worked or did not work.

Bonnie Rodriguez – speaker understands both side of the discussion. She asked if a team have an option to pay the hourly rate in addition to the $10 fee to practice on the artificial turf prior to say a upcoming tournament if they want to. Solis is uncomfortable with charging the fee to these organizations. Solis pointed out that $100 fee is included in the Departments Fee structure but you don't want the organizations to pay extra and ask what does our $10 cover.

Organizations are now also discussing tournaments at Walker with three fields. That is additional usage.

Barbara Payne – Stated that tournaments are something she loves as it brings money to the community of Galt. She was on the Council when they decided to put in the turf at Walker Park and never did she believe that we would be restricting people from using it. She believes that Galt is known for our parks and this is disappointing to her but she likes tournaments.

Solis asked Commission for a recommendation to use Walker artificial turf as a "Game Only" facility form May 1 through October 31 and to return in November with information on the usage for that time period to be reviewed by the Commission. Motion as stated by Solis was moved by Reuthinger and seconded by Buchanan. There was a call for a vote and motion passed 3-1 with Steele in opposition.

UPCOMING COUNCIL AGENDA ITEMS

None

a. Resident Non-Profit Facility Rentals – January 15th

Last year Resident Non-Profit groups were given the use of the Littleton and Chabolla Centers free of charge for two events per calendar year on a one (1) year trial basis to be brought back to Council for review. Steele had concern about "FREE" as there is an expense to the City and although non-profit it should not be free. Solis let the Commission know that in the past Staff assisted with set up and clean up. With the no fee provision, organizations have to do their own set up, tear down and clean up. A deposit of $150 is held and if facility is not left in same or better condition it was given to the organization then the cost of staff time to do so is deducted from the deposit.

b. Independence Day Celebration – February 5th

UPCOMING EVENTS

a. Strawberry Festival – May 17th , Chamber is the contact

COMMISSIONERS REPORTS

a. Chairperson Moore – Is pleased having the Community here voicing their opinions.

b. Vice- Chairperson Buchanan – Had additional GYB question about the $10 fee. He was about another fee for lights. Solis responded that there is a $15 hourly light fee that by paying the $10 player fee is a reduction from the normal $35 - $55 hour fee.

c. Commissioner Reuthinger – posed the question as to why the Community Park baseball fields are not open to the public. Solis responded that it is a reservable field and is used by the High School, Galt Youth Baseball, Galt Youth Baseball, and Tournaments etc.

- Asked if the Community Park had a Concessions Stand and if it was being used. The room is not set up for concessions anymore and with the minimal usage in the past and the cost to the Health Department fee is $300 - $400 annually.

d. Commissioner Smith - absent

e. Commissioner Steele – asked for more information on the rim height. Mrs. Buchanan reiterated much of the information that Mr. Pate spoke of. Apparently, during her last game Mr. Buchanan was coaching on her behalf and when he approached the other coach which she states is the only one in the 2nd & 3rd grade league that has the higher rims, Sports Coordinator Ochoa handed Mr. Buchanan a new set of rules that allowed for different rim heights. Moore asked if this rule change was a consensus of the coaches and Mrs. Buchanan responded no. Moore asked if Mrs. Buchanan had both the original rule sheet and the new rule sheet and she said she does.

- Moore asked if there the Department has a meeting at the end of the season with the coaches to review the good and bad of the season and get their input. Mrs. Buchanan responded not in the 10 + years she has coached.

f. Vice- Chairperson Smith – absent

STAFF COMMENTS

FUTURE AGENDA ITEMS

a. Report on scheduling practices for Youth Sports – Past and Present procedures. When and why did they change for both Basketball and Baseball/Softball?

b. Update on the Overpass and C Street landscaping responsibility – who's is it? - Selby

ADJOURNMENT

Being no further business before the Parks and Recreation Commission, the meeting was adjourned at 9:05 pm.

Respectfully submitted,

Deborah Porteous-Toste, Administrative Assistant

Meeting Date: March 13, 2013
Item Number:

Parks and Recreation Commission Agenda Report

FROM: Armando Solis, Special Projects Administrator

SUBJECT: OFFICER KEVIN TONN MEMORIAL DOG PARK OPTIONS

RECOMMENDATION
Discuss alternatives relating to a memorial dog park in honor of Officer Kevin Tonn and provide a recommendation to City Council relating to the preferred location and funding options.

DISCUSSION
At the March 5, 2012 City Council directed staff to bring for discuss by the Parks and Recreation Commission site and funding options for the Officer Kevin Tonn Memorial Dog Park.

Officer Tonn was fatally shot while on duty on January 15, 2013. Since that time, there has been significant interest in developing a permanent memorial to his service and sacrifice to the Galt community. At the February 5, 2013 City Council meeting, Vice Mayor Singleton asked staff to provide cost estimates for developing a dog park at Harvey Park in honor of Officer Kevin Tonn. Harvey Park currently has one baseball field, a volleyball court, restroom, picnic tables and barbecue grills.

Staff has developed the following options and cost estimates for developing a dog park at Harvey Park.

Option 1: Vacant lot south of Harvey Park
In 2007, the City purchased a 0.4 acre parcel immediately to the south of Harvey Park as a future expansion of the park. In 2010 the City completed an update to the Park Master Plan that involved significant public input. Strategy/Recommendation EP-1 in the Park Master Plan (Priority A) recommends that the Harvey Park Expansion be developed as a tot lot with children's play structure, picnic areas, parking, and related improvements (see attached conceptual diagram). The purpose is to provide activities for young children and families living in the neighborhood or attending baseball games. It notes that this area is underserved with respect to these children's playground facilities.

Despite this recommendation in the Park Master Plan, the Council has the ability to change the proposed use. However, it is recommended that the item be submitted to the Parks and Recreation Commission for public input and a recommendation to the City Council, prior to final action.

City Manager Approval:

TYPE OF ITEM:	COUNCIL ACTION: Approved Denied Revised
____ Consent	Reso No _____ Ord No _____
____ Departmental	Moved By:
____ Public Hearing	Seconded By:
____ Redevelopment Agency	Vote:
____ Other	

The location presents a few planning and zoning challenges as this area is designated as "Residential" in the Downtown Specific Plan. Parks are permitted uses by right in the Specific Plan, but it would require Site Plan Review approval and an amendment to the Downtown Specific Plan to maximize the use of the site. These actions would require City Council approval. It is likely that the park could be developed under a CEQA exemption.

The site would require grading and drainage and could include the following features in an approximate 120' x 150' area:

1. Separate large/small dog areas
2. Chain link fence
3. Dual gates
4. Decomposed granite path
5. Benches
6. Grass with irrigation
7. Dog-friendly water station
8. Signage
9. Pet waste bag stations with trash receptacles
10. Shade structure
11. Safety lighting
12. Security cameras
13. Sidewalks along Third and D Streets
14. Paving D Street with curb & gutter

The total cost to develop this vacant parcel as noted above is approximately $340,000. Due to the significant work effort required to design the park and the commitment of staff to deliver other existing CIP projects, staff recommends that the design work be contracted out. Staff estimates that cost for the design work would add an additional $75,000 to the project for a total project cost of $415,000. Design could take up to one year to complete, assuming an RFP is issued for these services. It would likely take an additional 8-10 months to bid and construct the project once the construction documents are completed.

Option 2: **Northwest corner of Harvey Park**
There is an approximate 0.2 acre area at the northwest corner of Harvey Park that is currently underutilized. The area has large, mature oak trees with non-irrigated grass that browns in the summer months. After examining this site, staff believes that this area could be converted into a dog park relatively easily, with no Specific Plan or Park Master Plan amendments necessary. A CEQA exemption would also likely be appropriate.

The site would require only basic grubbing/clearing with no grading or additional drainage necessary and could include the following features in an approximate 80' x 115' area:

1. One area for both large and small dogs
2. Chain link fence
3. Dual gates
4. Decomposed granite path
5. Benches
6. Bark, decomposed granite or possibly K-9 artificial grass surface
7. Dog-friendly water station
8. Signage
9. Pet waste bag stations with trash receptacles

10. Safety lighting
11. Small watering system to minimize dust

The total cost to develop this portion of the park as noted above is approximately $60,000. The design work could be completed in house. The total estimated time to design, bid and construct the park is approximately 8-10 months.

FINANCIAL IMPACT

This project is not included in the City's current budget and would require either an appropriation from the City Council from General Fund reserves and/or community fundraising efforts to complete. The total cost for Option 1 is approximately $415,000 depending on the extent of the improvements. The total cost for option 2 is approximately $60,000.

It is important to note that neither option includes dog agility/training elements that exist in the existing Monterey Park dog park. If desired, these features could be added at a later date as funding becomes available.

ALTERNATIVES

Alternative #1 - The City Council could refer this matter to the Parks and Recreation Commission for a recommendation before providing direction to Staff on the desired alternative. This would add at least one month to the project timeline.

Alternative #2 - In the event the Council decides to provide direction at this time regarding the preferred option, the Council could also direct staff to bring a conceptual design to the Parks and Recreation Commission and City Council for approval prior to finalizing the design. This would add approximately 6 weeks to the project timeline.

Parks & Recreation Commission Agenda Report

Meeting Date: March 13, 2013
Item Number:

FROM: Armando Solis, Special Projects Administrator

SUBJECT: YOUTH SPORT PRACTICE SIGN UP PROCEDURES

RECOMMENDATION
Receive the informational report.

DISCUSSION
At the February 6, 2013 Parks and Recreation Commission meeting, the Commission requested that staff return with past and current practice on the scheduling of practices for youth T-Ball/Softball and Basketball.

In 2010 I was assigned the responsibilities of supervising the recreation sports activities division of the Parks and Recreation Department. When I was assigned this task there were no written standard operational procedures (SOP) regarding the administration of any sports programs to follow or adhere to. Under the direction of then Parks and Recreation Director Boyce Jeffries, the majority of our current procedures where implemented, but have been adjusted over the last 2 seasons in an effort to make the procedures as easy and as fair as possible for all coaches.

City staff is currently in negotiations with the Galt Elementary School District to dedicate and upgrade specific facilities for the Parks and Recreation Department to utilize solely for our programs. With these new upgrades and dedicated facilities, staff will review the current practice scheduling procedures with the goal of allowing coaches to sign up/reserve times for more than two week periods of time. Staff will also be asking current and past coaches for their input regarding the process.

The current procedures are as follows:

Youth Basketball / T-Ball / Girls' Softball

- After the players' draft, coaches are instructed to either call or visit the Parks and Recreation Department Office on a specific date and time to sign up for practices for a two week period. This is done on a first come, first serve basis.
- Coaches are then instructed to either call or visit the Parks and Recreation Department Office every two weeks to sign up for the next two week period. For example, coaches will call or visit the office on Monday, February 1st to schedule practice times for February 8 – 21. The

next available time to sign up for new practice times will be Monday, February 15 for February 22 – March 7.

Both programs have specific issues and needs concerning the scheduling of practices (hoop height, dirt infield, lights, etc.). Certain facilities or fields must be designated specifically for different age/grade level teams.

EXAMPLES:

1. 4th Grade Basketball teams cannot practice at McCaffrey Middle School because the rims are set at 10' and the 4th Grade Basketball program requires that they use 8' rims.
2. With the limited number of dirt infields available, Instructional Baseball teams could not sign up for infield dirt diamonds for practices. Teams would be directed to an outfield grass diamond. The dirt infields have been reserved for Minis, Minors and Majors Girls' Softball.
